

## Upstart in Nordcham Hanoi

Back from the summer holidays. Nordcham Hanoi is ready to restart the activities. The Nordcham Board has met to discuss the plans for the 2nd half of 2009, and various corporate and social activities are in the cards.

Initially, a group of organizers are working on arranging the annual Scandinavian Crayfish Party. Tentatively they have booked the 10th of October but the date has not yet been confirmed.

Previously, Nordcham has had success in organizing a Scandinavian film day, and this year the Board will try to do so. The day will be a social event with different films being showed for both the younger and older audience. The timing of this event is still not decided.

In connection with the upcoming State visit by the Royal Family, Nordcham Hanoi will try to arrange a round-table discussion with one or more prominent Danish business executives joining the State visit. Nordcham Hanoi will work with the organizers of the visit to see if such activity can be arranged.

Nordcham Hanoi is currently discussion with a number of other chambers to re-launch the knowledge-sharing groups. This will it will be an inter-chamber of commerce set-up where members from different chambers can join the groups. Initially, a knowledge-sharing group on HR will be set up to test the interest and viability.

Nordcham Hanoi will also seek to organise further round-table discussion within the Nordcham Hanoi membership. A number of interesting topics have been suggested already. Members are welcome to come forward with further ideas for such discussions and also take lead in facilitating these events.

Business mixers will also be organized from time to time, and again this year Nordcham Hanoi intends to celebrate the release of the Beaujolais Nouveau with an informal get-together after working hours.

Members are always encouraged to give input and ideas. The Board is looking forward to an interesting and fruitful Autumn with members of Nordcham Hanoi.

Nordcham Secretariat, 08 September 2009
